ANNEXURE 1: RISK FACTORS

The following are the risks envisaged by the management of the Corporation relating to the Corporation, the Debentures and the market in general.

I. General Risk

Potential investors should carefully consider all the risk factors in this Information Memorandum for evaluating the Corporation and its business and the Debentures before making any investment decision relating to the Debentures. The Corporation believes that the factors described below represent the principal risks inherent in investing in the Debentures but does not represent that the statements below regarding the risks of holding the Debentures are exhaustive. The order of the risk factors is intended to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another. Investors should also read the detailed information set out elsewhere in this Information Memorandum and reach their own views prior to making any investment decision.

If any one of the following stated risks actually occurs, the Corporation's business, financial conditions and results of operations could suffer and, therefore, the value of the Corporation's Debentures could decline and/or the Corporation's ability to meet its obligations in respect of the Debentures could be affected. More than one risk factor may have simultaneous effect with regard to the Debentures such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect which may not be predictable. No prediction can be made as to the effect that any combination of risk factors may have on the value of the Debentures and/or the Corporation's ability to meet its obligations in respect of the Debentures. Potential investors should perform their own independent investigation of the financial condition and affairs of the Corporation, and their own appraisal of the creditworthiness of the Corporation. Potential investors should consult their own financial, legal, tax and other professional advisors as to the risks and investment considerations with respect to the Debentures. Potential investors should thereafter reach their own views prior to making any investment decision.

These risks and uncertainties are not the only issues that the Corporation faces. Additional risks and uncertainties not presently known to the Corporation or that the Corporation currently believes to be immaterial may also have a material adverse effect on its financial condition or business. Unless specified or quantified in the relevant risk factors, the Corporation is not in a position to quantify the financial or other implications of any risk mentioned herein below.

The Corporation believes that the factors described below represent the principal risks inherent in investing in the Debentures, but the inability of the Corporation, as the case may be, to pay principal or other amounts on or in connection with any Debentures may occur for other reasons and the Corporation does not represent that the statements below regarding the risks of holding any Debentures are exhaustive.

Please note that unless specified or quantified in the relevant risk factors, the Corporation is not in a position to quantify the financial or other implications of any risk mentioned herein below:

II. Risks in relation to the non-convertible securities

(a) Repayment of principal is subject to the credit risk of the Corporation

Potential investors should be aware that receipt of the amounts payable by the Corporation in respect of the Debentures is subject to the credit risk of the Corporation and the potential investors assume the risk that the Corporation may not be able to satisfy their obligations under the Debentures. In the event that bankruptcy/ insolvency proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy/ insolvency are instituted by or against the Corporation, the payment of sums due on the Debentures may be substantially reduced or delayed. The Debentures represent an obligation of the Corporation alone and do not impose any obligation on the GoK or any other person other than the Corporation whatsoever. No financial recourse is available to the Debenture Holders against the GoK or any person other than the Corporation. The payment of the interest and principal due under the Debentures is subject to the ability of the promoters to bring in funds into the Issuer or the ability of the Issuer to refinance the amount due under the Debentures.

(b) Rating Downgrade Risk

The Rating Agency has assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Corporation, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. In such cases, potential investors may incur losses on re-valuation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms. The rating is not a recommendation to purchase, hold or sell the Debentures in as much as the ratings do not comment on the market price of the Debentures or its suitability to a particular investor. There is no assurance either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the Rating Agency. In the event of deterioration in the rating of the Debentures, the investors may have to take loss on revaluation of their investment.

(c) Changes in Interest Rates may affect the price of the Debentures

All securities where a fixed rate of interest is offered, such as this Issue, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the pricing of the Debentures.

III. Tax Considerations and Legal Considerations

During the tenure of the Debentures, all such imposts, duties and taxes which may be levied on the Debentures for a period after the Deemed Date of Allotment may have to be borne by the investors. Any expenses or taxes arising on account of change in tax or regulatory

framework in relation to the Debentures may be to the account of the investors unless the said expenses or taxes are to be borne by the Issuer. Special tax considerations and legal considerations may apply to certain types of potential investors. Potential investors are urged to consult with their own financial, legal, tax and other professional advisors to determine any financial, legal, tax and other implications of this investment.

IV. Corporation's indebtedness and covenants imposed by its financing arrangements may restrict its ability to conduct its business or operations

The Corporation's financing arrangements have been entered into on the basis of certain covenants. Should there be any breach of such covenants of any financing arrangements and such breach continues beyond the stipulated cure period (if any), the Corporation may be subjected to various consequences as a result of such default including forced repayment of such borrowings. Further, under some of the financing arrangements, the Corporation may be required to inform/ obtain prior approval of the lenders/ debenture holders/ debenture trustee for various actions. This may restrict/ delay some of the actions/ initiatives of the Corporation from time to time.

V. Accounting Considerations

Special accounting considerations may apply to certain types of taxpayers. Potential investors are urged to consult with their own accounting advisors to determine implications of this investment.

VI. Material changes in regulations to which the Corporation are subject could impair the Corporation's ability to meet payments or other obligations.

The Corporation is subject generally to changes in applicable law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Corporation or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

VII. Limited or sporadic trading of non-convertible securities of the issuer on the stock exchanges

The Debentures may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. This could limit the ability of the Investor to resell them. This leads to liquidity and price risk on the Debentures.

VIII. Legality of Purchase

Potential investors of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates or for compliance by that potential investor with any law, regulation or regulatory policy applicable to it.

IX. Political and Economic Risk in India

The Issuer operates only within India. As a result, it is highly dependent on prevailing economic conditions in India and is significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults.

X. Inherent Risk in Portfolio

The Issuer had an AUM of Rs 6529 Cr as on 31.03.2023 and Rs.7131 crores as on 31.12.2023 fully concentrated in Kerala. Given the socio-economic objective of the corporation, where it provides financial assistance to MSME sector, majorly in manufacturing and service sector and given the impact of demonetization and COVID 19 on the MSME sector, the asset quality of the company was impacted. Despite the stress witnessed, the corporation was able to improve its asset quality due to its recovery efforts and persistent monitoring. GNPA and NNPA of the corporation reduced to 3.11% and 0.74% respectively in FY23 from 3.27% and 1.28% respectively in FY22.

XI. Moderate Asset Quality

KFC has moderate asset quality as the GNPA as on Dec, 2023 stood at 5.61% from 3.11% as on March 31, 2023. KFC also has high borrower concentration as the top three borrowers, all Kerala state PSUs, amounted to Rs. 2355 Cr. as on Dec 31, 2023.

XII. Other risks

The investments do not represent deposits or other liabilities of the Issuer or the Debenture Trustee and that they are not insured; and

The investments can be subject to investment risk, including possible delays in repayment and loss of income and principal invested.

Rating Rationale

Acuite has assigned the long term rating of '**ACUITE AA**' (read as ACUITE double A) on the Rs. 1000.00 Cr Bonds of Kerala Financial Corporation (KFC). The outlook is '**Stable**'.

Acuite has reaffirmed the long term rating of '**ACUITE AA**' (read as ACUITE double A) on the Rs. 1750.00 Cr Non-convertible Debentures of Kerala Financial Corporation (KFC). The outlook remains '**Stable**'.

Acuite has reaffirmed the long term rating of '**ACUITE A+**' (read as ACUITE A plus) on the Rs. 5299.01 Cr Long Term Bank Loan Facilities of Kerala Financial Corporation (KFC). The outlook remains '**Stable**'.

Acuite has reaffirmed the Short term rating of '**ACUITE A1**' (read as ACUITE A one) on the Rs. 700.99 Cr Short Term Bank Loan Facilities of Kerala Financial Corporation (KFC).

Rating Rationale

The rating factors in majority ownership of the Government of Kerala (99 percent) in KFC and its strategic importance as a financial institution for assistance of Micro, Small and Medium Enterprises (MSME) sector in the state. The rating takes into account the regular support from Government of Kerala and its experienced management. KFC's capitalization levels remained moderate at 25.58 percent as on March 31, 2023. The rating also takes into account KFC's portfolio growth (Rs 6529.4 Cr. as on March 31, 2023 as against 4750.71 Cr. as on March 31, 2022) driven by disbursements of Rs 3555.94 Cr during FY2023. By virtue of state government ownership and support, the corporation enjoys strong resource raising ability at a competitive rates and maintains comfortable liquidity buffers. Also for NCD, the rating takes the additional support from the Debt Service Reserve Account (DSRA) and the Structured Payment Mechanism.

The rating is however constrained on account of KFC's portfolio concentration in MSME Sector and State government entities, its moderate profitability levels and fiscal constraints faced by Government of Kerala.

About the company

Kerala Financial Corporation was incorporated in 1953, under the State Finance Corporations Act, 1951 by Government of Kerala, with an objective of rapid industrialization of the state by extending financial assistance to Micro, Small and Medium Enterprises in manufacturing and service sector. The corporation was originally established as the Travancore Cochin Financial Corporation in 1953 and consequent to reorganization of states on linguistic basis in November 1956, Kerala State was formed and the Travancore Cochin Financial Corporation was renamed as Kerala Financial Corporation.

Analytical Approach

Acuite has considered the standalone approach while assessing the business and financial risk profile of KFC and has factored in the financial, operational and managerial support it receives from Kerala Government by virtue of being a State Financial Corporation. The rating factors in the high degree of Government holding in KFC along with the systematically important role played by the corporation in implementing the key financial and developmental objectives of the state. Further for NCD, the rating also takes the support of the presence of internal credit enhancement proposed in the form of Debt Service Reserve Account (DSRA) and the Structured Payment Mechanism.

Strength**Ownership and Support from Government of Kerala (GoK):**

KFC is a State finance corporation established under the SFC Act, 1951. The board of KFC includes representation from Government of Kerala. The Board of Directors comprise 3 bureaucrats appointed by the Government of Kerala and the others representing SIDBI, LIC of India and State Bank of India (erstwhile State bank of Travancore). The Government of Kerala is the 99 percent stakeholder in the corporation and is expected to support the corporation given its systemic importance to the state. KFC's capitalization levels remained adequate at 25.58 percent as on March 31, 2023 as against 22.41 percent as on March 31, 2022. By virtue of state government ownership and support, the corporation enjoys strong resource raising ability at lower cost of funds thereby maintaining comfortable liquidity buffers to meet its funding requirements. KFC's funding profile is supported by the State Government's moral obligation to support the capitalization levels both on an ongoing basis and in the event of distress. KFC's funding mix comprises equity contribution from its shareholders primarily GoK, NCDs and borrowings from banks. Of the overall outstanding borrowings of Rs 6186.93 Cr. as on March 31, 2023, NCDs comprise ~18 percent and remaining ~82 percent is bank borrowings including foreign currency loans. KFC is a Nodal Agency for several policy initiatives by the State Government of Kerala and is responsible to implement the states policy initiatives announced in the annual state budget.

The corporation in the past has operationalized various policy initiatives by GoK such as Kerala State Entrepreneur Development Mission and Interest Subvention for Innovative Projects. The corporation is presently promoting schemes such as Startup Support Scheme, Receivable Financing scheme to support various business while extending working capital loans and term loans as its own products. KFC reported loan portfolio of Rs. 6529.4 Cr as on March 31, 2023 as against Rs. 4750.71Cr as on March 31, 2022. Since the support from GoK is critical to the rating, the credit profile of Kerala state is of key importance. The state's fiscal headroom has been further impacted by the recent COVID outbreak. While this is expected to put some pressure on Kerala's fiscal metrics over the near term, the overall fiscal health of the state over the medium term is expected to stay satisfactory. Movement in the state's key fiscal metrics i.e. fiscal deficit to GSDP and Debt to GSDP will remain key monitorable.

Acuité believes that the corporation will continue to benefit from strong financial and managerial support from the State Government on an ongoing basis over the medium term.

Maintenance of principal cash collateral, DSRA along with presence of Structured Payment Mechanism for NCD:

The rating factors in the Structured Payment Mechanism (SPM) put in place by KFC to ensure timely availability of funds for servicing of debt obligations. The rating on the Rs. 1000.00 Cr. Bonds considers the presence of Structured Payment Mechanism wherein starting from the 1st day of each quarterly servicing cycle, remit on every working day an amount equivalent to 2.00% of the aggregate servicing requirement for such quarterly servicing cycle to the bond servicing account. The Debenture Trustee shall monitor the same on T-15 day (T is the due date) and any shortfall persisting on T-9th day shall be met through transfer of requisite funds from the DSRA. The SPM is also stipulates that KFC would be required to maintain in DSRA an amount equivalent to total servicing obligation (principal plus interest) for the next two quarters on a rolling basis. KFC would also be required to maintain a cash collateral for an amount equivalent to 10% of the outstanding amount of debentures. Both, the Cash Collateral and DSRA would be in the form of cash and cash equivalent, invested in permitted instruments and would remain charged in favour of the debenture trustee. In case of any erosion from the DSRA due to transfer of funds in bond servicing account, the same shall be required to be cured within 30 days (T+30). If not the same shall be made good by transferring necessary amount of funds / investment to the DSRA from cash collateral and the Debenture Trustee should immediately inform the issuer to replenish the cash collateral amount to the stipulated level within the next 30 days (T+60). The cash collateral, DSRA, investment as per structured payment mechanism, and funds in the escrow account till such time being utilized would be permitted to remain invested in Fixed deposits with Scheduled commercial banks with preferably A1+ rating or AA or higher rating, Central or State Government securities (G Sec/T- Bills /SDL) or AAA/AA paper rated by two SEBI/RBI approved rating agency. These investments will be pledged in favour of debenture trustee. The rating centrally assumes complete adherence to the SPM by the debenture trustee and KFC on an ongoing basis.

Weakness**Moderate profitability; albeit improving.**

The profitability in FY2023 stood at Rs. 50.19 Cr. (Rs 13.2 Cr for FY2022). The corporation reported Net Interest margin of 2.5 percent in FY2023 as against 4.74 percent in FY2022 and 3.01 percent in FY2021. The profitability continues to be supported by lower operating expenses to earning assets of 0.58 percent for FY2023 as against 0.79 percent in FY2022 along with low average cost of borrowing of 7.84 percent in FY2023. The corporation's return on average assets stands at 0.79 percent as on March 31, 2023 (0.25 percent for FY 2022).

Acuité believes, given the challenges, the company's ability to manage the additional slippages while maintaining the profitability will be key rating sensitivity

Moderate asset quality and Concentration towards Kerala state PSUs.

KFC has moderate asset quality as the GNPA as on Mar, 2023 stood at 3.11% from 3.27% as on March 31, 2022. While ontime portfolio has improved to 90.61 percent as on Mar 2023 as against 81.63 percent on Mar 2022. Further the company also has restructured accounts amounting to Rs.~545.09 Cr which reduced from ~Rs. 734 Cr. as on March 31, 2022. KFC also has high borrower concentration in the top

three borrowers, all Kerala state PSUs, amounted to ~Rs. 2630 Cr. as on Mar 31, 2023. Moving forward KFC's ability to reduce the concentration of top borrowers and its ability to maintain NPA and restructured accounts will be key monitorables

The company is in talks with various lenders to raise long term debt. The company's liquidity position is supported by Cash and Bank Balance of Rs 65.85 Cr as on March 31, 2023. Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite' s categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.

List of Key Rating Drivers with Detailed Description

Key Rating Strengths

Ownership of Government of Kerala and strategic importance of the corporation

Kerala Financial Corporation (KFC) was incorporated under the State Financial Corporations Act of 1951, with an objective of development and industrialization of Kerala, extending financial assistance to Micro, Small and Medium Enterprises in manufacturing and service sector. The Govt of Kerala holds majority shareholding of 99.00%, followed by Small Industries Development Bank of India (SIDBI) (0.97%), Life Insurance Corporation (LIC) (0.01%) and State Bank of India (SBI) at (0.003%). KFC also acts as a nodal agency for several policy initiatives of the State Govt and is responsible for implementing the state's policy initiatives announced in the annual state budget. Given the strategic importance of the corporation in overall growth of the state and implementation of its schemes/policies of the state government, the corporation receives regular financial support from the state government.

Given the support from GoK is critical to the corporation, the credit profile of Kerala state is of key importance. The state's fiscal headroom was impacted by the COVID outbreak as the state highly depends on tourism. However, the same starts to rebound from FY23., the overall fiscal health of the state over the medium term is expected to stay satisfactory.

Press Release

Comfortable Capitalisation

The corporation is comfortably capitalised with total CRAR of 25.58% as against the minimum regulatory requirement of 15% as on 31 March 2023 as against 22.41% as on 31 March 2022. The corporation has a tangible net worth of Rs 917.04 Crores as on 31 March 2023 as against Rs. 688.87 Crores as on 31 March 2022. As on Sept 30, FY24 CAR and Tangible Net worth stood at 25.00% and Rs. 917.04 Crores respectively.

Consistent growth in loan portfolio

Given its objective to provide financial assistance to the MSME and Service sector which results in overall growth of economy of the state, the loan portfolio has consistently grown over the years on the back of increased sanctions and disbursements. Sanctions have increased from Rs 2877.00 Crores in FY22 to Rs 3207.22 Crores in FY23. Disbursement also increased from Rs 2175.00 Crores in FY22 to Rs 3555.95, Loan Portfolio increased from Rs.4750.71 crores to 6529.40 Crores in FY23. Further, it has grown to Rs 7000.34 Crores in H1FY24.

Structured payment mechanism

The bonds issued by corporation have a strong structure and inbuilt payment mechanism apart from the charge on receivables which helps them to raise bonds at competitive rates. Outstanding bonds which are raised till FY22 of Rs. 452.70 Crores and Rs. 750.00 Crores which are raised in FY23 are secured by “Debt Service Reserve Account” where an amount equivalent to 2 quarters debt repayment (Principal and Interest) is maintained throughout the tenure of the bonds, cash collateral in the form of fixed deposit equivalent to 10% (for Bonds raised till FY22) & 20% (for bonds raised in FY23) of the outstanding principal and amount equivalent to principal repayment of respective year shall be brought in by T-7 (T is the due date) and the said amount will be invested in permitted investments. The maturity proceeds of the said investment will be credited directly to the designated escrow account and will be utilized for principal redemption process.

For the proposed NCDs of Rs 1000.00 Crores, are secured by “Debt Service Reserve Account” where an amount equivalent to 2 quarters debt repayment (Principal and Interest) is maintained throughout the tenure of the bonds, cash collateral in the form of fixed deposit equivalent to 10% of the outstanding principal and the presence of Structured Payment

Press Release

Mechanism wherein starting from the 1st day of each quarterly servicing cycle, KFC should remit on every working day an amount equivalent to 2.00% of the aggregate servicing requirement for such quarterly servicing cycle to the bond servicing account. The Debenture Trustee shall monitor the same on T-15 day (T is the due date) and any shortfall persisting on T-10th day shall be met through transfer of requisite funds from the DSRA. Both, the Cash Collateral and DSRA would be in the form of cash and cash equivalent, invested in permitted instruments and would remain charged in favour of the debenture trustee. In case of any erosion from the DSRA due to transfer of funds in bond servicing account, the same shall be required to be cured within 30 days (T+30).

Key Rating Weaknesses

Moderate financial profile of Government of Kerala

The Gross State Domestic Product (GSDP) of the state for 2023-24 (at current prices) is projected to be Rs 11.30 lakh crore amounting to growth of 11.20% over 2022-23. Fiscal deficit for 2023-24 is targeted at 3.5% of GSDP (Rs 39,662 crore). In 2022-23, as per the revised estimates, fiscal deficit is expected to be 3.6% of GSDP, lower than the budget estimate of 3.9% of GSDP. Revenue deficit in 2023-24 is estimated to be 2.1% of GSDP (Rs 23,942 crore), marginally higher than the revised estimates for 2022-23 (2% of GSDP). In 2022-23, the revenue deficit is expected to be lower than the budget estimate (2.3% of GSDP).

Average, albeit improving asset quality

Given the socio-economic objective of the corporation, where it provides financial assistance to MSME in manufacturing and service sector and given the impact of demonetization and COVID 19 on the MSME sector, the asset quality of the company was impacted. Despite the stress witnessed, the corporation was able to improve its asset quality due to its recovery efforts and persistent monitoring. GNPA and NNPA of the corporation reduced to 3.11% and 0.74% respectively in FY23 from 3.27% and 1.28% respectively in FY22. However, the company has maintained comfortable levels of provision coverage ratio of ~84.89% for FY23. Infomerics believes that given the business model of the corporation and its exposure to MSME sector, the asset quality continues to be under pressure. In H1FY24, the asset quality moderated with GNPA and NNPA increasing to 5.10% and 3.20% respectively.

Press Release

Moderate profitability coupled with high gearing.

As the corporation provides loans at subsidised costs, the NIMs of the corporation remain low in the range of 2-3% and given the high impairment cost (Rs 155.40 Crores for FY23 and Rs 156.97 Crores in FY22), the profitability remains comfortable with ROTA of 0.80%, RONW of 6.14% , PAT margin have been improved to 12.39% for FY23 from 6.76% in FY22. Also, the majority of the loan portfolio growth is funded by external debt and hence the gearing of the corporation remains high at 6.75x in FY23. Going forward, the ability of the corporation to infuse more capital and bring down the gearing levels will be a key rating monitorable.

Review report to
The Board of Directors
Kerala Financial Corporation
Kanaka Nagar Vellayambalam
Thiruvananthapuram -695033

We have reviewed the accompanying statement of unaudited financial results of Kerala Financial Corporation for the three-month period ended 31.12.2023. This statement is the responsibility of the Corporation's Management and has been approved by the Board of Directors. Our responsibility is to issue a report on these financial statements based on our review.

We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 - "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain the moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

In the conduct of our Review, we have relayed on the review reports received from concurrent auditors of the Head office and branches specifically appointed for this purpose. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results prepared in accordance with applicable accounting standards and other recognized accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement or that it has not been prepared in accordance with the relevant prudential norms issued by the Reserve Bank of India in respect of income recognition, asset classification, provisioning, and other related matters.

Emphasis Paragraph:

1. We refer to Note No.7 regarding the recognition of unrealized foreign exchange fluctuation loss or gain as on 31.12.2023.
2. The calculation of Deferred tax Asset/ Liability is done on a yearly basis hence no impact of the same has been effected in the financials for the period ended 31.12.2023. (Reference to Note No.8).
3. We refer to Note No.5. KFC generally creates minimum provision for Standard Assets and for Non-Performing Assets provision is made in excess of RBI requirements at the end of the Financial Year. However, KFC has kept the current provision as on 31.03.2023 without any changes as it is more than the minimum provision required by RBI.
4. The corporation has not written off any technical bad debts or made any provision for the same as on 31.12.2023, which is only done at the year-end. The profit shown for the nine-month period ended 31.12.2023 is subject to this adjustment. (Reference to Note-4).
5. The balance in suspense account as on 31.12.2023 amounting to Rs. 7.17 Cr comprises of mainly repayment from contractor term loans and recovery made through the newly opened SARBs. As it is kept in the suspense account, we are not able to assess the impact on the Profit & Loss A/c of the Corporation. However, from the said balance in suspense account, Rs.5.49 Cr has been cleared in January,2024.
6. The Corporation had restructured loan accounts during the COVID period and classified the same as standard assets and the balance outstanding of such loans as on 31.03.2023 was Rs.545.10 Cr. The Corporation had provided additional provision of 5-10% on these assets and has classified them as standard assets. The balance outstanding of such loans as on 31.12.2023 is Rs.372.52 Cr.
7. The Corporation has a property acquired against a defaulted loan with a value of Rs.400.34 Lakh shown as an asset in its Balance Sheet. This has been there for a very long time and there are no adequate records available to substantiate the recoverability of this asset.
8. The Corporation does not have a full-fledged system to verify whether the collateral securities are revalued once in every three years and updated in the loan database and accounting records with the revalued figures.

9. The corporation has outstanding loan with the following Public Sector Undertakings as on 31.12.2023

- a) Kerala Infrastructure Investment Fund Board (KIIFB) – Rs. 875.01 Crores
- b) Kerala Social Security Pension Ltd (KSSP) – Rs. 499.99 Crores
- c) Vizhinjam International Seaport Ltd (VISL) – Rs. 428.76 Crores
- d) Kerala State Electricity Board (KSEB) – Rs. 980.52 Crores

These loans are secured only by the sovereign guarantee of Govt. of Kerala and do not have any other security.

DIRECTORS' REPORT

To
The Stakeholders

The Board of Directors is pleased to place before you the 70th Annual Report of Kerala Financial Corporation (KFC) along with the Audited Balance Sheet as at March 31, 2023, the Profit and Loss Account and the Cash Flow Statement for the year ended March 31, 2023. The performance highlights are also given in the Annual Report for the year 2022-23.

KFC incorporated under the State Financial Corporations Act of 1951, has now become the best State Financial Corporation in India, playing a vital role in the industrialization of the State by providing financial assistance to Micro, Small and Medium Enterprises in the manufacturing and service sector. All along our constant endeavour has been to bring a sharper focus on the requirements of our customers and to provide the highest levels of service.

The Indian economy have moved on after its encounter with the pandemic, staging a full recovery ahead of many nations and have positioned itself to the pre-pandemic growth path during FY 2022-23. Resilient domestic macroeconomic and financial conditions and new growth opportunities from global geo-economics shifts has placed India at a advantageous position. Prompt and adequate measures by the RBI have reined in the rise in inflation and brought it within the Central Bank's tolerance limit.

The Government of Kerala had declared the Financial Year 2022-23 as the "Year of Enterprises". The objective of the initiative was to encourage and promote Micro, Small, and Medium level entrepreneurs in the State by creating one lakh new enterprises in Kerala during the FY 2022-23. The Government has achieved this ambitious target within a remarkable period of 250 days and 1.39 lakh enterprises started in the state during the FY. As part of this achievement, a sizeable amount of investment and new employment opportunities were created in the State. The State Government continues its policy of promoting growth and development of the economy, and ensures social protection and job creation despite the constraints imposed by the pandemic, natural calamities, and economic slowdown. The Government has come out with 'Kerala Industrial Policy 2023' which aims to reorient existing industries to adopt Fourth Industrial Revolution (4IR) technologies, enhancing their efficiency and competitiveness. Special emphasis is placed on achieving an Industry 4.0-ready industrial ecosystem by 2028 through responsible investments and fostering innovation.

In this "Year of Enterprises", KFC has stood behind the State Government, fulfilling the financial requirements of the budding as well as existing enterprises with a handholding & customer friendly approach. The loan portfolio of the Corporation surpassed Rs.5000 crore mark for the first time in a FY and reached Rs.6529.40 crore. Even though the repo rate was increased by 250 bps during

the FY 2022-23 which ultimately affected the funding cost of the Corporation, the interest rates were not hiked by KFC even a single time during this period, and that too, when all the Banks were passing on the additional interest burden to their customers. With the support of the State Government, KFC continued to offer loans at attractive rates to the entrepreneurs. With the infusion of share capital of Rs.200 crore by the State Government, the Corporation could improve the Capital Adequacy Ratio (CRAR) to 25.58%. The Corporation announced new loan schemes and extended revival packages to various sectors. Corporation also conducted a special recovery drive for the settlement of doubtful assets and mobilised Rs.100.27 crore from the written off portfolio. Despite the diverse challenges, the Corporation remains resilient and has delivered a robust financial and operating performance with significant growth across various parameters. The key performance indicators are Sanction (up 11.49%), Disbursements (up 63.48%), Portfolio (up 37.44%), Profit (up 280.26%) and Gross NPA (down 4.89%), Net NPA (down 42.19%).

These encouraging figures reflecting an all-round balanced growth are the outcome of deliberate strategic efforts of a highly committed Professional Team of the Corporation who pursued the path of excellence, notwithstanding challenges. In addition to the excellent performance, an exceptional focus on credit quality, seamless processes and systems, ethical practices, and disclosures are the hallmarks of the Corporation with a strong regard for compliance. INDEPENDENT AUDITOR'S REPORT

To

The Members
Kerala Financial Corporation
Thiruvananthapuram

Report on the Audit of the Financial Statements,

We have audited the Financial Statements of Kerala Financial Corporation (herein referred to as KFC), which comprise the Balance Sheet at March 31st 2023, and the Profit and Loss account and the statement of Cash Flows for the Year Ended, and the Notes to the Financial Statements, including a summary of Significant Accounting Policies.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the accompanying Financial Statements give a true and Fair of the Financial Position of the entity as at 31st March 2023 and of its Financial Performance and its cash flows for the year the ended in accordance with the directives of SIDBI, State Financial Corporation Act and the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI).

Basis of Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section for our report. We are independent of the entity according to the ethical requirements that are relevant to our audit of the Financial Statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for the opinion.

Emphasis of Matter

1. The corporation has restructured loan accounts amounting to Rs.54509.73 Lakh and classified as Standard assets, and accrued interest on these assets is about Rs.800 Lakh. The corporation has made additional provision of 5% -10% on these assets and is included in the provision for bad debts.
2. The corporation applies a higher percentage of provision for bad debts on sub-standard assets than prescribed in the RBI Norms. Though the corporation does it on a conservative basis, the correct application of RBI Norms will have a material impact on the Profit and Loss account of the corporation.

3. The corporation has a portfolio of Bills Purchased and Discounted to the tune of Rs. 14192.57 Lakh as on 31/03/2023 and classified as standard assets. However, an aging analysis by due date for settlement of these assets is not available to ascertain the requirement for any additional provision to be taken.
4. The corporation has a property acquired against a defaulted loan with a value of Rs.400.34 Lakh shown as an asset in its Balance Sheet. This has been there for a very long time and there are no adequate records available to substantiate the recoverability of this asset.
5. The corporation does not have a full-fledged system to verify whether the collateral securities are revalued once in every three years and updated in the loan database and accounting records with the revalued figures.
6. Govt of Kerala infused Rs.20000 Lakh on 31/03/2023 as share capital to the corporation. However, the same amount was resumed on the same day and reallocated it on 04/04/2023. We understand from the management that the amount was resumed on 31/03/2023 due to a technical issue of Govt of Kerala's year end closing process of its treasury activities. The corporation has showed the same as advance received for share capital as on 31/03/2023.
7. The corporation had provided the following loans to Public Sector Undertaking (PSU) of Govt of Kerala during the year 2022-23:
 - i. Kerala Infrastructure Investment Fund Board (KIIFB) – Rs. 100000 Lakh
 - ii. Kerala Social Security Pension Ltd (KSSP) – Rs. 50000 Lakh
 - iii. Vizhinjam International Seaport Ltd (VISL) – Rs. 50000 Lakh
 - iv. Kerala State Electricity Board (KSEB) – Rs.50000 Lakh

We have found that the corporation has waived off processing fees on all these loans, and these loans are secured only by the sovereign guarantee of the Govt of Kerala and does not have any other security

Our opinion is not modified in respect of these matters.

Other Matters

1. Though the corporation has a policy of carrying out physical verification of fixed assets once in a year, the corporation has not done the same for its branches during the year 2022-23.
2. We have come across instances where entire details of Insurance Policy such as Insurance Declared Value, Expiry Date, Lien Clause etc. are not updated in the system and hence not available for complete verification.
3. Accounting and Reporting Process of the Corporation is highly dependent on Information System Controls. We have observed data cleansing issues during the period of Audit. We are of the opinion that there is an inherent risk that any control lapses,

incorrect input data, ineffective data migration procedures and wrong extraction of data may result in the financial accounting and Reporting records being misstated.

Our opinion is not modified in respect of these matters.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and the Fair Presentation of the Financial Statements in accordance with the aforesaid Accounting Standards, and for such internal controls as management determines is necessary to enable the preparation of Financial Statement that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using going concern as the basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to Fraud or error and to issue an Auditor's Report that includes our opinion. Reasonable Assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from Frauds or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

Corporate Information

The Kerala Financial Corporation is a State Financial Corporation having its area of operations in the state of Kerala and incorporated under the provisions of the State Financial Corporation Act, 1951. It was established as the Travancore Cochin Financial Corporation on 01.12.1953. Consequent to the reorganization of states on linguistic basis in November 1956, Kerala State was formed and the Travancore Cochin Financial Corporation was renamed as Kerala Financial Corporation. The Corporation is engaged in extending financial assistance to Micro, Small and Medium Enterprises in manufacturing and service sector in the state.

Basis of Preparation

The Financial Statements of the Corporation have been prepared and presented under the historical cost convention and on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the statutory requirements prescribed under the State Financial Corporation Act, 1951, the circulars and guidelines issued by the SIDBI and Reserve Bank of India ('RBI') from time to time and the Accounting Standards to the extent applicable and practices generally prevalent in the banking and financial sector in India. The Corporation has adopted the format of Schedule III to the Companies Act as amended by Notification G.S.R.207(E), dated 24th March, 2021 to the extent applicable and Accounting standards issued by the Institute of Chartered Accountants of India, for better presentation of the financial statements.

The accounting policies adopted in the preparation of financial statements are in consistence with those of previous year except for the change in accounting policy, explained hereunder.

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 . Uses of Estimates

The preparation of the Financial Statements, in conformity with Indian GAAP requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures relating to contingent assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in material or immaterial adjustments to the carrying amounts of assets or liabilities in future periods. Actual results could differ from those estimates. The Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Any revisions to the accounting estimates are recognised prospectively in the current and future periods.

1.2. Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Corporation and the revenue can be reliably measured. All the revenue items are accounted on accrual basis. Income is recognised on accrual basis on performing assets and on realisation basis in respect of non-performing assets as per the prudential norms on income recognition, asset classification and provisioning prescribed by RBI/SIDBI. The Corporation debits the monthly interest in all the loan accounts on the first day of the subsequent month. Interest due is calculated and charged to the party on gross basis and the eligible rebate is credited to the party on payment of dues in time subject to their rating and other factors determining the rate of rebate. The rebate for prompt payment is deducted from interest income for reporting in the financial statements. Interest accrued on standard loans is recognized as interest income in the financials at the end of the financial year and is reversed on the first day of the next financial year.

The commission on performance guarantee provided is collected upfront from the customers for the full tenure of guarantee period. However the commission in respect of the unexpired portion of the guarantee will be reversed at the end of the financial year. In case of completion/closure of facility before the specified tenure, corporation will reimburse the commission for the balance period, provided the commission for a minimum period of one year will be retained.

Recovery of loans and advances is appropriated first towards recovery of expenses, then towards interest and the balance, if any, towards principal. However, in the case of Compromise Settlement and sale of units taken over under the SFCs Act, 1951 and Revenue Recovery proceedings, the proceeds are apportioned first towards recovery of expenses and then towards principal amount and lastly towards interest, on satisfaction of the stipulated conditions. Recoveries from bad debts written-off are recognised in the Statement of Profit and Loss as revenue on receipt basis.

1.3. Investments

The classification and valuation of the securities and investments are done as per the Treasury & Investment Policy in compliance with the Accounting Standards and as per applicable regulatory and statutory norms laid down from time to time. Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as Non-current investments.

Investments classified under long term investments need not be marked to market and will be carried at acquisition cost on individual investment basis, unless it is more than the face value, in which case the premium should be amortised over the period remaining to maturity. Investments classified under Current Investments will be valued at lower of cost and fair value either on individual investment basis or by category of investment. The cost comprises of purchase price and directly attributable acquisition charges such as brokerage, fees and duties. The provision for diminution is made to recognise a decline, other than temporary, in the value of investments determined for each investment individually. Reduction in the carrying amount and reversals of such reductions are charged or credited to the profit and loss statement.

On disposal of an investment, the difference between carrying amount and net disposal proceeds are charged or credited to the profit and loss statement. Any amount received in future in respect of these investments will be credited to profit and loss statement. Interest, dividend or other receivables in connection with the investments are considered as income.

1.4. Loans and Advances

Advances are classified as performing and non-performing based on the RBI / SIDBI guidelines and are stated net of bad debts write-off. The provisions for possible losses on such advances are made at estimated rates which is equal to or more than the rates prescribed in the prudential norms, circulars and directives issued by RBI/SIDBI. The Current maturity of Loans & advances is classified as Other Current Assets (Note No.14) under the head Current Assets and the non current portion is classified as Other Non-current Assets (Note No.11) under the head Non Current Assets. The Current maturity of Long term borrowings is classified as Short term borrowings (Note No.6) under the head Current Liabilities and the non current portion is classified as Long term borrowings (Note No.3) under the head Non Current Liabilities.

The Corporation provides Fund based and Non fund based facilities to the customers. In case a non fund based limit becomes NPA, its fund based limit also will be considered as NPA. In the reverse scenario, where fund based limit becomes NPA then its non fund based limit is also categorised as NPA. However the non fund based limit will be live till the time it is invoked or cancelled.

Advances that are in Doubtful category are technically written off and charged to revenue account to maintain asset quality. Amount recovered against the bad debts written off in earlier years are recognised in the Profit and Loss Account as income of the year in which such amounts are received.

1.5. Provision

A provision is recognised when the Corporation has a present obligation as a result of past event where it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and should be determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

1.6. Provisioning Norms and Provision Coverage Ratio (PCR)

In conformity with the prudential norms, provisions are given on the basis of classification of assets as prescribed by RBI / SIDBI . The Corporation follows the policy of building up provisioning when the profits are good, which can be used for absorbing losses in a downturn. The provisions are made at such rates as recommended by ALCO with the approval of the Board.

General provisions are the minimum regulatory provisions as prescribed by RBI. Specific provisions are additional provisioning at rates higher than the rates prescribed by RBI. Floating provisions are provisions kept in addition to the Specific provisions and not used for making specific provisions or general provisions as per the extant

prudential guidelines. It is used only for contingencies under extraordinary circumstances for making specific provisions in impaired accounts.

Provisioning Coverage Ratio (PCR) is the ratio of provisioning to gross non-performing assets and indicates the extent of funds the Corporation has kept aside to cover loan losses. PCR is calculated as per the guidelines given vide RBI circular DBOD.No.BP.BC.64/21.04.048/2009-10 dated December 1,2009 and circular no. DBOD.No.BP.BC.87/21.04.048/2010-11 dated April 21,2011.

The Corporation has the provisioning cushions consisting of general provisions, specific provisions as well as floating provisions, and are maintaining a total PCR including floating provisions, which is not less than 70 per cent.

Provision for standard advances are made at such rates subject to the minimum provisioning prescribed by the RBI / SIDBI guidelines for standard advances. Provisions for bad and doubtful debts are made in respect of non-performing advances based on overall portfolio quality, asset growth, economic conditions, Management's assessment and other risk factors subject to the minimum provisioning level prescribed by the RBI / SIDBI guidelines. Additional provisions are made against specific non-performing assets over and above what is stated above, if in the opinion of the management, is necessary. In case the specific provision available during a year is more than the required minimum or the ALCO recommended rates, the excess provision can be either written back or can be considered for that year as decided by ALCO. Floating provisions cannot be reversed by credit to the profit and loss account.

During the year the corporation has provided 0.25% for SME sector, 0.40% for Medium /Other sector and 1% for CRE sector for all standard advances and thus provision made is in line with the minimum prescribed by the RBI / SIDBI guidelines. A judicious provision of 77% (62% in FY 2021-22) is made for all Substandard advances including secured portion of loans covered under CGTMSE. For the unsecured and uncovered portion of loans under CGTMSE, 100% provision is made. The total PCR is maintained above 70% at 84.89% as on March 31, 2023.

1.7. Taxes on Income

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961. The tax rates and tax Laws used to compute the amounts will be those that are prescribed, at the reporting date. Deferred Taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws prescribed at the reporting date.

Deferred tax assets including the unrecognized deferred tax assets, if any, at each reporting date, are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which deferred tax assets can be realized. Deferred tax liabilities are recognized for all taxable timing differences. No provision for Deferred Tax Liabilities on Special Reserve created as per Section 36(1) (viii) of the Income Tax Act, 1961 since the reserve created is of having no reasonable certainty that the same would be adjusted / withdrawn in foreseeable future years and the period of time for the difference to be evened out is also not ascertainable.

1.8. Employee Payments and Retirement Benefits

Short-term employee benefits are recognized as expense in the profit and loss account of the year in which the related service is rendered. Terminal benefits to employees include Provident Fund (PF) payments, leave encashment and gratuity.

Defined contribution plan: Retirement benefit in the form of provident fund is a defined contribution plan wherein the contributions are charged to the Profit and Loss Account every year when the contributions to the fund are due and when services are rendered by the employees. The Corporation contributes 12% of Basic Pay+DA+Personal Pay to the Provident Fund which is administered by a duly constituted and approved independent trust by name KFC Employees Provident Fund Trust. The employees will be paid the balance outstanding in their PF account along with interest accumulated thereon at the date of superannuation. The Corporation has no obligation other than the contribution payable to the provident fund in this regard. The employees who joined after 01.04.2018 are not members of this Trust.

Defined Benefit Plan: The Corporation contributes towards gratuity fund administered by Life Insurance Corporation of India (LIC) for eligible employees and is covered under Group Gratuity scheme. The gratuity limit is fixed as per the Payment of Gratuity (Amendment) Act, 2018. The plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee's salary and the years of employment with the Corporation. Liability with regard to gratuity fund is accrued based on the actuarial valuation and demand raised by LIC. The premium is paid to LIC as demanded by them at the time of renewal of the scheme. The Corporation contributes towards the terminal encashment of earned leave to the employees under the Group Leave Encashment Scheme of LIC. The contribution to the fund is paid as per the actuarial valuation and demand raised by LIC. Under both these schemes, the settlement obligations remain with the Corporation, although LIC administers the schemes and determine the contribution premium required to be paid by the Corporation as per the valuation done by LIC. The Corporation take an independent external actuarial valuation as on 31st March every year to ascertain the position of funds vis a vis liability. The shortfall if any in the funds shall be paid on the basis of actuarial report of LIC / external valuation whichever is less based on the fund position of the Corporation. The contribution made to the fund every year is accounted as expenses and hence the excess / shortfall amount in the fund if any is not recognised as asset / liability in the Balance Sheet. The Corporation neither recognizes the actuarial gain/loss in the P&L A/c, nor shows the liability/asset of fund in the Balance sheet. The Corporation is following this practice consistently during the past years and LIC has always met the liability in this regard. All the claims for the FY 2022-23 have been settled by LIC.

National Pension Scheme: This is a defined contribution scheme and is applicable to employees who joined the Corporation on or after 01.04.2018. 10% of Basic +DA + Personal Pay will be deducted from the employee's salary and an equivalent amount being the Corporation contribution will be credited to the NPS account of the employee on a monthly basis. They will not be eligible for employer PF contribution. The employees who joined before 01.04.2018 are given an option to contribute to NPS in three proportions. The Corporation contributes an amount equal to the contribution of employees and such contribution is charged to Profit and Loss Account.

GOVERNMENT OF KERALA

Pinarayi Vijayan
CHIEF MINISTER

I am happy to note that the Kerala Financial Corporation continues to perform well even though our economy is under severe stress due to the COVID-19 pandemic.

It is noteworthy that through special schemes like the Chief Minister's Entrepreneurship Development Programme and schemes for Startups, KFC continues to reach out to a larger section of the people.

I hope that KFC will continue its role in supporting MSMEs and Startups and identify new areas in which it can assist entrepreneurs as Kerala moves closer to its goal of becoming a knowledge economy and an innovation society. This will in turn push Kerala's economy to greater heights.

I extend my warm wishes to KFC and its customers.

GOVERNMENT OF KERALA

K N Balagopal
Minister for Finance

KFC is a trendsetter in the field of long-term finance, playing a major role in the development and industrialization of Kerala. The Corporation has now emerged as a financial supermarket giving its customers a wide range of products and services.

In spite of the stress due to COVID-19, the Corporation could improve its performance, during the FY 2020-21, in terms of portfolio growth, sanctions, disbursements, recovery etc. The Corporation could curb its NPA levels also.

I am happy to see that KFC has revamped its policies and procedures and also reduced interest rates further to support MSMEs during its pandemic time. As part of COVID-19 Relief package, the Corporation has recently announced three new loan schemes. 'Startup Kerala Scheme', Special scheme for units in Industrial Estates and the revamped Chief Minister's Entrepreneurship Scheme (CMEDP) for MSMEs.

We are passing through a very difficult time in human history, collectively we will face and tide over this crisis period. I hope all the employees, customers and stakeholders of KFC, will strive for the developmental needs of our state.

DIRECTORS' REPORT

To

The Stakeholders

The Board of Directors is pleased to place before you the 69th Annual Report of Kerala Financial Corporation (KFC) along with the Audited Balance Sheet as at March 31, 2022, the Profit and Loss Account and the Cash Flow Statement for the year ended March 31, 2022. The performance highlights are also given in the Annual Report for the year 2021-22.

KFC incorporated under the State Financial Corporations Act of 1951, plays a major role in the development and industrialization of Kerala extending financial assistance to Micro, Small and Medium Enterprises in manufacturing and service sector. The Corporation has been among the top SFCs in the country and has remodelled itself to become an institution that offers a bouquet of financial products and services to entrepreneurs at competitive terms with a customer friendly approach.

Though FY 2021-22 began with optimism in the context of the development of vaccines against Covid-19 pandemic, economic activity remained more or less subdued due to surge in infections in between resulting in localised and regional lockdowns. To avoid further financial distress and to ensure continued economic activity, Govt. of India and RBI took several initiatives like ECLGS, rejuvenation package for travel and tourism sector, PM SVANidhi Scheme, PMFME Scheme etc.

The Directorate of Economics and statistics projected a decline of almost 4% in Gross State Domestic Product (GSDP) of Kerala State for 2021. To mitigate this Govt. of Kerala announced various stimulus packages for economical revival including the Vyavasaya Bhadratha Scheme to revive MSMEs in the State. The State Govt. also announced the establishment of one lakh MSMEs in the year 2022 and has decided to transform the State to complete digitally administered State by 15th August 2022.

Despite the multiple challenges that the Corporation had to confront on account of the pandemic, the Corporation has established itself as a partner of choice for entrepreneurs. There have been sweeping changes in the policies and processes with renewed thrust to support MSME industry. The Corporation announced new loan schemes and extended relief measures to various sectors. The Corporation is also the nodal and implementing agency for several policy initiatives by the Government of Kerala. Despite the subdued general economic scenario, the Corporation has recorded a buoyant performance in terms of growth in loan portfolio, profitability and reduced NPA levels. The key performance indicators are Portfolio (up 2.80%) Profit (up 100.60%) and Gross NPA (down 8.66%). The performance is a reflection of the various reforms taken as a means of leveraging the business through reduction in interest rate, digitization for improved customer experience, productivity, revenue and quality of loan portfolio through continuous effort to come out with a wide range of products and services and innovative schemes.

Overall improved performance, comfortable capital adequacy, improved net worth, adequate liquidity position, reduction in NPA levels, higher provision coverage, etc. echo the financial discipline of the Corporation. Well Planned actions have helped in these achievements. The Corporation benefits from the strong support received from the Government of Kerala. Moreover the Corporation has sufficient infrastructure and resources to gear up and tackle the temporary disruptions. KFC will be providing financial assistance through more attractive packages especially to the tourism sector, MSME sector and Startups.

During the year, the Corporation has launched new products and services and also fine-tuned the existing loan schemes, services and processes to remain competitive. The key initiatives taken up during FY 2021-22 are given below:

- **Reduced Interest Rates.** The Corporation has reduced the rate of interest across all sectors w.e.f. 01.07.2021, in view of the stress faced by MSMEs due to COVID-19 pandemic, and the benefit has been passed on to all customers irrespective of their reset date. Where additional interest rates were charged due to the fair value-based earlier valuation policy/ restructuring done, the additional interests so charged were also credited in their concerned loan accounts.
- **20% additional COVID-19 Relief Loan to MSME, Healthcare and Hospitality Sector.** To meet the liquidity issues due to the second wave of COVID-19, 20% additional loans were provided to existing customers of the Corporation in the Hospitality, Travel & Tourism sectors.
- **Resolution of COVID-19 related stress of MSMEs.** Because of the uncertainties created by the second wave of the COVID-19 pandemic, the Corporation had extended the restructuring facility to existing loans in line with RBI guidelines.
- **Assistance to MSMEs in Healthcare to Fight COVID-19.** The second wave of the COVID-19 pandemic has created a shortage of lifesaving and personal protective equipment in the market. To encourage local production, a special loan scheme, 'KFC Assistance to MSMEs in Healthcare to Fight COVID-19' at a net interest rate of 7% pa was introduced.
- **Introduced External Valuation.** The Corporation has revamped its credit policies emphasizing viability-based funding and as a part of the same, the Corporation has empanelled qualified external technical valuers across Kerala for assessing the value of security properties as followed by Banks.
- **'Support MSMEs' Special Scheme for Assisting MSMEs located at Industrial Estates.** The main objective of the Corporation is to assist MSME units in the State. Since most of the good MSMEs are being established at Industrial Estates, a special loan product was introduced for assisting MSMEs located at Industrial Estates.
- **'Startup Kerala' - Comprehensive Scheme by KFC for Financing Startups.** The Corporation started a new scheme named 'Startup Kerala' to assist Startups during all stages of their growth starting from Productization/ Commercialization/ Scaling Up to Venture Debt. The maximum assistance is Rs.25 lakh for productization, up to Rs.50 lakh for commercialization and up to Rs.100 lakh for Scaling up, subject to 90% of the project cost in each stage. The Loans are provided at the lowest interest rate of 5.6%. Further, there are provisions for easy finance for executing Purchase Orders, discounting Bills and also for availing Venture Debt up to Rs.1000 lakh. KFC assisted 26 Startups with Rs.2760.40 Lakh during the FY.
- **COVID Special Loan Settlement Adalath 2021.** The disruptions due to the COVID-19 pandemic had affected the recovery of the Corporation in general. To improve recovery, the Corporation conducted 'COVID Special Loan Settlement Adalath 2021' in the month of October-November 2021. A total of 300 applications were received under the Adalath. The Task Force Committee for Adalath (TFC) approved 275 cases amounting to Rs.26684.53 lakh. Out of the approved cases, 130 cases were settled as of 31.03.2022. The total amount collected as of 31.03.2022 is Rs.8412.53 Lakh.

- **Business Review Committees.** To fasten the credit delivery, Branch Office Level Committees were empowered to take credit decisions up to Rs.200 lakh. Appraisal hubs were set up at the Head Office level for speedy processing of large proposals. The loan documents and formalities for processing loans were simplified. All loan enquiries are accepted online and in-principle clearances are accorded within seven days.
- **Issuing Guarantees to execute Sub-Contract Works.** Considering the fact that most of the major contract works happening in Kerala are bagged by non-Kerala based large contracting firms and they sub-contract the works to Kerala based contractors, the Corporation decided to assist sub-contract works also including them in 'LoC only for Government Contractors' scheme.
- **LoC Scheme for MSMEs.** Even though a lot of funding opportunities are available now, MSMEs are still facing constraints in obtaining adequate finance, particularly in terms of finding funds to execute the work orders and also to convert their bill receivables into liquid funds. To ease the liquidity position of MSMEs, MSMEs are included in the LoC Scheme to assist them in executing the Work Orders, Discounting pending Bills, etc.
- **Chief Minister's Entrepreneurship Development Programme (CMEDP) Edition II.** The existing 'CM's Entrepreneurship Development Programme' was revised and the loan amount increased to Rs.100 lakh from Rs.50 lakh and the interest rate was reduced to 5% from 7%. During the year, the Corporation has sanctioned assistance worth Rs. 11308 Lakh to 224 units and disbursed Rs. 3996.66 Lakh under this scheme.
- **Revision of Asset Coverage Ratio Norms.** To attract good entrepreneurs, by switching over to viability and cash flow-based funding, the minimum Asset Coverage Ratio (ACR) norms for MSME sectors were revised. The ACR for MSMEs in the manufacturing sector was reduced to 1 (from 1.40 times) and service sector to 1.50 times (from 1.75 times). It was also decided to fix the minimum collateral security requirements for non-fund-based limits to external credit rating, starting at 25% collateral for external Credit Rating above CRISIL 'A'/'SME3' or its equivalent.
- **Including Corporates as Work Issuing Authorities for LoC Schemes.** The Corporation was providing facilities to Contractors and MSMEs for executing Government works and discounting Government bills only so far. Considering the changing business scenario, it was decided to include 'Corporates' also as Work Issuing Authorities for LoC schemes.
- **Limit of accommodation.** The State Government, vide GO (MS) No.23/2022/Fin dated 03.02.2022, have appointed KFC as an agent of the State Government, under Section 25 1(e) of State Financial Corporation's (SFCs) Act 1951, for providing financial assistance up to Rs.50 crore to Industrial Concerns, MSMEs and State PSUs. The upper cap for Bill Discounting for all entities was increased to Rs.5000 lakh and the Bills Discounted are shown separately in the financial statements of the Corporation.
- **Loan Schemes for the Revival of potentially Viable Sick Units and revitalizing MSMEs.** MSMEs suffer the most in situations, especially from discontinuity of business, which they normally are not in a position to bear and become sick immediately. Revival of potentially viable MSME units which have already become sick is of the utmost importance from the point of view of the State economy, in view of the sector's contribution to the overall industrial production, exports and employment generation. Under this background, the Corporation launched two schemes, one for the revival of the sick, but potentially viable SME units and Asset-Backed Scheme to revitalize MSMEs.
- **Renovation of Head Office.** The renovation of the Head Office building of the Corporation to a modern style building is being undertaken. Destruction of old files was carried out as per the 'Policy on Preservation of Documents' approved by the Board.
- **Awards and Recognitions 2021-22**
 - SKOTCH National Award 2022 for CMEDP
 - FACT MKK Nayar Memorial Best Productivity Performance Award for Service Industries
 - Metro Food Best Financial Service Provider Award for Hospitality Sector

IT Initiatives.

- **Electronic payment system.** KFC has enabled the electronic payment system for all its customers. 95% of the repayments are currently through online payment systems like Virtual accounts, Google pay, POS, etc.

- **e-Procurement.** The procurement of KFC is done through Govt e-Procurement portal, CPCRS Portal and GeM.
- **Loan Origination System.** The digitalization process of the entire loan journey by implementing the Loan Origination System (LOS) is in progress and will be completed by June 2022.

INDEPENDENT AUDITOR'S REPORT

To

The Members
Kerala Financial Corporation
Thiruvananthapuram

Opinion

We have audited the financial statements of Kerala Financial Corporation (herein referred to as KFC), which comprises of the Balance Sheet as at March 31, 2022, and the Profit and Loss Account and Statement of Cash Flows for the year then ended, and Notes to the Financial Statements, including a summary of Significant Accounting Policies.

In our opinion, the accompanying Financial Statements give a true and fair view of the financial position of the entity as at March 31, 2022, and of its financial performance and its cash flows for the year then ended in accordance with the directives of SIDBI, State Financial Corporation Act and the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI)

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. We have come across instances where valuation of immovable property given as security have not been done every three years and property value is not updated in the system.
2. We have come across instances where entire details of Insurance Policy such as Insurance Declared Value, Expiry Date, Lien clause etc. are not updated in the system and hence not available for complete verification.
3. The Corporation is in the practice of taking consolidated Trial balance for the preparation of financial statements. The operations and accounts of the Corporation are centralized with no branch level financials generated.
4. Attention is drawn to sub point 2 to point no 2.2 of Note no.20. Restructuring as per Resolution Framework 2.0 for the resolution of Covid-19 related stress of Micro, Small and Medium Enterprises (MSMEs) has been given by way of multiple restructuring measures.
5. Refer Sub Point.4 of Point No.2.2 of Note No. 20. Though minimum provisioning norms have been made, there has been change in the Asset provisioning norms for Sub Standard category followed by KFC during the year under audit resulting in enhancement of overall provision by Rs. 309.32 lakh.
6. Accounting and reporting process of the Corporation is highly depended on Information system controls. We have observed data cleansing issues during the period of audit. We are of the opinion that there is an inherent risk that any control lapses, incorrect input data, ineffective data migration procedures and wrong extraction of data may result in the financial accounting and reporting records being misstated

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the Financial Statements in accordance with the aforesaid Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

CORPORATE INFORMATION

The Kerala Financial Corporation is a State Financial Corporation having its area of operations in the state of Kerala and incorporated under the provisions of the State Financial Corporation Act, 1951 . It was established as the Travancore Cochin Financial Corporation on 01.12.1953. Consequent to the reorganization of states on linguistic basis in November 1956, Kerala State was formed and the Travancore Cochin Financial Corporation was renamed as Kerala Financial Corporation. The Corporation is engaged in extending financial assistance to Micro, Small and Medium Enterprises in manufacturing and service sector in the state.

BASIS OF PREPARATION

The Financial Statements of the Corporation have been prepared and presented under the historical cost convention and on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the statutory requirements prescribed under the State Financial Corporation Act, 1951, the circulars and guidelines issued by the SIDBI and Reserve Bank of India ('RBI') from time to time and the Accounting Standards notified under Section 133 of the Companies Act, 2013 read together with paragraph 7 of the Companies (Accounts) Rules, 2014 to the extent applicable and practices generally prevalent in the banking and financial sector in India. The Corporation has adopted the format of Schedule III to the Companies Act as amended by Notification G.S.R. 207(E), dated 24th March, 2021 to the extent applicable and Accounting standards issued by the Institute of Chartered Accountants of India, for better presentation of the financial statements.

The accounting policies adopted in the preparation of financial statements are in consistence with those of previous year except for the change in accounting policy, explained hereunder.

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 . Uses of Estimates

The preparation of the Financial Statements, in conformity with Indian GAAP requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures relating to contingent assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in material or immaterial adjustments to the carrying amounts of assets or liabilities in future periods. Actual results could differ from those estimates. The Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Any revisions to the accounting estimates are recognised prospectively in the current and future periods.

1.2. Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Corporation and the revenue can be reliably measured. All the revenue items are accounted on accrual basis. Income is recognised on accrual basis on performing assets and on realisation basis in respect of non-performing assets as per the prudential norms on income recognition, asset classification and provisioning prescribed by RBI/SIDBI. The Corporation debits the monthly interest in all the loan accounts on the first day of the subsequent month. Interest due is calculated and charged to the party on gross basis and the eligible rebate is credited to the party on payment of dues in time subject to their rating and other factors determining the rate of rebate. The rebate for prompt payment is deducted from interest income for reporting in the financial statements. Interest accrued on standard loans is recognized as interest income in the financials at the end of the financial year and is reversed on the first day of the next financial year.

The commission on performance guarantee provided is collected upfront from the customers for the full tenure of guarantee period. However the commission in respect of the unexpired portion of the guarantee will be reversed at the end of the financial year. In case of completion/closure of facility before the specified tenure, corporation will reimburse the commission for the balance period, provided the commission for a minimum period of one year will be retained.

Recovery of loans and advances is appropriated first towards recovery of expenses, then towards interest and the balance, if any, towards principal. However, in the case of Compromise Settlement and sale of units taken over under the SFCs Act, 1951 and Revenue Recovery proceedings, the proceeds are apportioned first towards recovery of expenses and then towards principal amount and lastly towards interest, on satisfaction of the stipulated conditions. Recoveries from bad debts written-off are recognised in the Statement of Profit and Loss as revenue on receipt basis.

1.3. Investments

The classification and valuation of the securities and investments are done as per the Treasury & Investment Policy in compliance with the Indian Accounting Standards and as per applicable regulatory and statutory norms laid down from time to time. Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as Non-current investments.

Investments classified under Long term investments need not be marked to market and will be carried at acquisition cost on individual investment basis, unless it is more than the face value, in which case the premium should be amortised over the period remaining to maturity. Investments classified under Current Investments will be valued at lower of cost and fair value either on individual investment basis or by category of investment. The cost comprises of purchase price and directly attributable acquisition charges such as brokerage, fees and duties. The provision for diminution is made to recognise a decline, other than temporary, in the value of investments determined for each investment individually. Reduction in the carrying amount and reversals of such reductions are charged or credited to the profit and loss statement.

On disposal of an investment, the difference between carrying amount and net disposal proceeds are charged or credited to the profit and loss statement. Any amount received in future in respect of these investments will be credited to profit and loss statement. Interest, dividend or other receivables in connection with the investments are considered as income.

1.4. Loans and Advances

Advances are classified as performing and non-performing based on the RBI / SIDBI guidelines and are stated net of bad debts write-off. The provisions for possible losses on such advances are made at estimated rates which is equal to or more than the rates prescribed in the prudential norms, circulars and directives issued by RBI/SIDBI. The Current maturity of Loans & advances is classified as Other Current Assets (Note No.14) under the head Current Assets and the non current portion is classified as Other Non-current Assets (Note No.11) under the head Non Current Assets. The Current maturity of Long term borrowings is classified as Short term borrowings (Note No.6) under the head Current Liabilities and the non current portion is classified as Long term borrowings (Note No.3) under the head Non Current Liabilities.

The Corporation provides Fund based and Non fund based facilities to the customers. In case a non fund based limit becomes NPA, its fund based limit also will be considered as NPA. In the reverse scenario, where fund based limit becomes NPA then its non fund based limit is also categorised as NPA. However the non fund based limit will be live till the time it is invoked or cancelled.

Advances that are in Doubtful category are technically written off and charged to revenue to maintain asset quality. During the year, all the doubtful advances are technically written off and charged to revenue to maintain asset quality. Amount recovered against the bad debts written off in earlier years are recognised in the Profit and Loss Account as income of the year in which such amounts are received.

1.5. Provision

A provision is recognised when the Corporation has a present obligation as a result of past event where it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and should be determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

1.6. Provisioning Norms and Provision Coverage Ratio (PCR)

In conformity with the prudential norms, provisions are given on the basis of classification of assets as prescribed by RBI / SIDBI . The Corporation follows the policy of building up provisioning when the profits are good, which can be used for absorbing losses in a downturn. The provisions are made at such rates as recommended by ALCO with the approval of the Board.

General provisions are the minimum regulatory provisions as prescribed by RBI. Specific provisions are additional provisioning at rates higher than the rates prescribed by RBI. Floating provisions are provisions kept in addition to the Specific provisions and not used for making specific provisions or general provisions as per the extant prudential guidelines. It is used only for contingencies under extraordinary circumstances for making specific provisions in impaired accounts .

Provisioning Coverage Ratio (PCR) is the ratio of provisioning to gross non-performing assets and indicates the extent of funds the Corporation has kept aside to cover loan losses. PCR is calculated as per the guidelines given vide RBI circular DBOD.No.BP.BC.64/21.04.048/2009-10 dated December 1,2009 and circular no. DBOD.No.BP.BC.87/21.04.048/2010-11 dated April 21,2011.

The Corporation has the provisioning cushions consisting of general provisions, specific provisions as well as floating provisions, and are maintaining a total PCR including floating provisions, which is not less than 70 per cent.

Provision for standard advances are made at such rates subject to the minimum provisioning prescribed by the RBI / SIDBI guidelines for standard advances. Provisions for bad and doubtful debts are made in respect of non-performing advances based on overall portfolio quality, asset growth, economic conditions, Management's assessment and other risk factors subject to the minimum provisioning level prescribed by the RBI / SIDBI guidelines. Additional provisions are made against specific non-performing assets over and above what is stated above, if in the opinion of the management, is necessary. In case the specific provision available during a year is more than the required minimum or the ALCO recommended rates, the excess provision can be either written back or can be considered for that year as decided by ALCO. Floating provisions cannot be reversed by credit to the profit and loss account.

During the year the corporation has provided 0.25% for SME sector, 0.40% for Medium /Other sector and 1% for CRE sector for all standard advances and thus provision made is in line with the minimum prescribed by the RBI / SIDBI guidelines. A judicious provision of 62% (60% in FY 2020-21) is made for all Substandard advances including secured portion of loans covered under CGTMSE. For the unsecured and uncovered portion of loans under CGTMSE, 100% provision is made. The total PCR is maintained above 70% at 76.94% as on 31st March 2022.

1.7. Taxes on Income

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS). GOVERNMENT OF KERALA

Pinarayi Vijayan
CHIEF MINISTER

I am happy to note that the Kerala Financial Corporation continues to perform well even though our economy is under severe stress due to the COVID-19 pandemic.

It is noteworthy that through special schemes like the Chief Minister's Entrepreneurship Development Programme and schemes for Startups, KFC continues to reach out to a larger section of the people.

I hope that KFC will continue its role in supporting MSMEs and Startups and identify new areas in which it can assist entrepreneurs as Kerala moves closer to its goal of becoming a knowledge economy and an innovation society. This will in turn push Kerala's economy to greater heights.

I extend my warm wishes to KFC and its customers.

GOVERNMENT OF KERALA

K N Balagopal
Minister for Finance

KFC is a trendsetter in the field of long-term finance, playing a major role in the development and industrialization of Kerala. The Corporation has now emerged as a financial supermarket giving its customers a wide range of products and services.

In spite of the stress due to COVID-19, the Corporation could improve its performance, during the FY 2020-21, in terms of portfolio growth, sanctions, disbursements, recovery etc. The Corporation could curb its NPA levels also.

I am happy to see that KFC has revamped its policies and procedures and also reduced interest rates further to support MSMEs during its pandemic time. As part of COVID-19 Relief package, the Corporation has recently announced three new loan schemes. 'Startup Kerala Scheme', Special scheme for units in Industrial Estates and the revamped Chief Minister's Entrepreneurship Scheme (CMEDP) for MSMEs.

We are passing through a very difficult time in human history, collectively we will face and tide over this crisis period. I hope all the employees, customers and stakeholders of KFC, will strive for the developmental needs of our state.

DIRECTORS' REPORT

To
The Stakeholders,

The Board of Directors takes immense pleasure in presenting the 68th Annual Report of Kerala Financial Corporation (KFC) along with the Audited Balance Sheet as at March 31, 2021, the Profit and Loss Account and the Cash Flow Statement for the year ended March 31, 2021. The success stories and initiatives taken along with performance highlights are also given in the Annual Report for the year 2020-21.

As the COVID-19 pandemic looms over the world, utmost priority is given for the health and wellbeing of people. We take this opportunity to bow our heads for COVID-19 combatants and express sympathies for those who lost their lives, including some of the staff of the Corporation.

As a State Financial Corporation incorporated under the State Financial Corporations Act of 1951, KFC is a strategically important financial institution in the State of Kerala, contributing towards the economic, industrial and social development of the state, by extending financial assistance to micro, small and medium enterprises in the manufacturing and service sectors. The Corporation is one of the best performing State Financial Corporations in the country with a competent tech savvy team of professionals at the core of services. KFC with constant endeavour has remodelled itself to become an institution that offers a bouquet of financial products and services to various business sectors at competitive terms with a customer friendly approach. Since inception, KFC has nurtured more than 65000 projects, spread across the length and breadth of the State.

The unprecedented crisis owing to COVID-19 pandemic has triggered a massive economic loss, severely impacting human and economic activity. India's GDP contracted by 7.3 per cent during FY 2021 due to the sudden outbreak of the COVID-19 pandemic which resulted in shutdown of major industries and nationwide lockdowns. The economic slowdown triggered by the pandemic has majorly impacted retail low-income borrower segments, self-employed professionals and MSME businesses. Government of India and RBI took several initiatives to combat the economic turbulence due to lockdown restrictions. The Monetary Policy Committee (MPC) of the RBI has kept key policy rates unchanged since May 2020, after having brought them down to a record low of 4% from 5.15% through two rate cuts (75 bps in March 2020 and 40 bps in May 2020), to assuage the economic consequences of the Covid-19 pandemic. Moreover, the MPC has continued with the accommodative policy stance after changing it from neutral to accommodative in June 2019. In addition, to enable the smooth functioning of financial markets, the RBI announced additional liquidity boosting measures such as OMOs, G-saps, forex swaps, TLTROs and sector-specific measures. The Government of India announced a fiscal stimulus package through collateral free debt, guarantee to subordinate debt through fund of funds and through interest subvention schemes, Productivity Linked Incentives (PLI) Schemes etc.

The State of Kerala has taken several steps to revive the economy affected by the adverse effects of the COVID-19 induced slowdown. Kerala's performance in containing the first wave of the COVID-19 pandemic was satisfactory, being the first state to unveil a ₹ 20000 crore financial package in March 2020 to tide over the pandemic crisis. Measures to improve the infrastructure and ease of doing business have built the investors' confidence. Encouraging entrepreneurship and providing resources for MSME growth are the other major steps in this direction.

The Kerala government has now come out with a supplementary package of ₹ 5,650 crore for helping out small traders, industries and farmers to tide over the crisis caused by the second wave of COVID-19. A ₹ 2,000 crore interest subsidy scheme for loans taken from Central and State financial institutions, cooperative sector institutions and commercial Banks form the major component of the package. Further, the rent on government space let out to shops has been waived till December 31, 2021. For providing a breather to MSMEs, the Government has also waived building tax, rent and the fixed charge on electricity connection for the period from July to December. As part of COVID-19 Relief package, the Government of Kerala has also announced three new schemes through KFC. 'Startup Kerala Scheme', Special scheme for units in Industrial Estates and the revamped Chief Minister's Entrepreneurship Scheme (CMEDP) for MSME units.

The Authorized share capital of the Corporation was increased from ₹ 35000 Lakh to ₹ 50000 Lakh and the present Paid up share capital is ₹ 42650.43 Lakh. The Government of Kerala has supported the Corporation through consistent capital infusions, including the recent equity infusion of ₹ 20000 Lakh in March and June 2020. The continued capital support from the Government of Kerala on an ongoing basis shows the Corporation's strategic importance to the State.

The Corporation took up the crisis caused by the pandemic as a challenge to support the State Government and revive the economy of the State to its earlier trajectory. As the economy is looking forward to the tremendous opportunities that would arise post pandemic condition, the Corporation has extended financial assistance to various State PSUs involved in fighting COVID-19 by discounting Promissory Notes issued by the Government and contractors bill discounting schemes. Further, new loan schemes were announced and moratorium was extended to various sectors that experienced potential stress. Moreover, KFC is the nodal and implementing agency for several policy initiatives by the Government of Kerala.

Even though the economy is under severe stress, the Corporation positioned itself well and was able to improve its bottom-line through resilient performance, in terms of ever time high loan portfolio growth, higher sanctions, disbursements and recovery. The Corporation also was able to significantly curb the NPA levels. The metric that best captures performance is the loan portfolio growth which improved by about 37.87% compared to the preceding year. The other key performance indicators are Sanctions (up 150.11%) , Disbursements (up 156.49%), Recovery (up 163.50%) and Gross NPA (down 24.47%). The performance is a reflection of the various reforms taken as a means of leveraging the business through reduction in interest rate, digitization for improved customer experience, productivity, revenue and quality of loan portfolio through continuous effort thereby establishing the corporation as one of the State's leading Financial Institution and country's number one State Financial Corporation with a wide range of products and services and innovative schemes.

Overall improved performance, comfortable capital adequacy, improved net worth, adequate liquidity position, reduction in NPA levels, higher provision coverage, etc. echo the financial discipline of the Corporation. Though the economic activity is gaining steam, considerable uncertainty surrounds the outlook owing to the renewed surge in COVID-19 cases. The Corporation benefits from the strong support received from the Government of Kerala. Moreover the Corporation has sufficient infrastructure and resources to gear up and tackle the temporary disruptions. Considering the continuing disturbances due to the second wave of COVID-19, KFC will be providing financial assistance through more attractive packages especially to the Health, Hospitality, Manufacturing sectors and Startups.

INDEPENDENT AUDITOR'S REPORT

To

The Members
Kerala Financial Corporation
Thiruvananthapuram

Opinion

We have audited the financial statements of Kerala Financial Corporation (herein referred to as KFC), which comprise the Balance Sheet at March 31st 2021, and the Profit and Loss Account and Statement of Cash Flows for the year then ended, and Notes to the Financial Statements, including a summary of Significant Accounting Policies.

In our opinion, the accompanying Financial Statements give a true and fair view of the financial position of the entity as at March 31, 2021, and of its financial performance and its cash flows for the year then ended in accordance with the directives of SIDBI, State Financial Corporation Act and the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI).

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

1. As regards the amount receivable from Government of Kerala (₹ 113.28 lakh) towards interest and expense borne by KFC on loans under KSEDM scheme there is no confirmation of balance.
2. We have come across instances where valuation of immovable property given as security have not been done every three years and property value is not updated in the system.
3. We have come across instances where entire details of Insurance Policy such as Insurance Declared Value, Expiry Date, Lien clause etc. are not updated in the system and hence not available for complete verification.
4. Ref Point No.2.2 Clause 4 of Note No. 20. Though minimum provisioning norms have been made, there has been change in the Asset provisioning norms for Sub Standard category followed by KFC during the year under audit resulting in reduction of overall provision by ₹ 1654.90 lakh
5. Ref Point No.2.2 Clause 4 of Note No. 20 : KFC has reclassified the Substandard assets amounting to ₹ 4515.91 lakh which turned doubtful during April - June 2021 as doubtful assets, thereby making the entire amount technically written off.
6. Attention is drawn to point No 2.13 of Note No 20 regarding asset acquired in satisfaction of a claim. The corporation recovered a Non Performing Asset by acquiring immovable property mortgaged by the borrower to the tune of ₹ 4 crore in the year 2008 – 09. The Corporation had put the property for e sale on 07.01.2021 and has received 150 lakh, being 25% of sale amount, but could not sell the property and sale has been cancelled. In this situation, we are not able to assess the extent of recoverability of this asset. ₹ 150 Lakh is now kept in Suspense Account.
7. Ref Point No.2.2 Clause 8 of Note No. 20 : The Hon. Supreme Court of India, vide judgment in Writ Petition (C) No.476/2020 dated 23.03.2021, had pronounced that all lending institutions should refund/ adjust the 'interest on interest' charged to the borrowers during the moratorium period. However, KFC has not adjusted or refunded the interest on interest levy, being ₹ 550 lakhs, during the said moratorium period.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the Financial Statements in accordance with the aforesaid Accounting Standards, and for such internal control as management determines is necessary to enable

the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

CORPORATE INFORMATION

The Kerala Financial Corporation is a State Financial Corporation having its area of operations in the state of Kerala and incorporated under the provisions of the State Financial Corporation Act, 1951. It was established as the Travancore Cochin Financial Corporation on 01.12.1953. Consequent to the reorganization of states on linguistic basis in November 1956, Kerala State was formed and the Travancore Cochin Financial Corporation was renamed as Kerala Financial Corporation. The Corporation is engaged in extending financial assistance to Micro, Small and Medium Enterprises in manufacturing and service sector in the state.

BASIS OF PREPARATION

The Financial Statements of the Corporation have been prepared and presented under the historical cost convention and on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the statutory requirements prescribed under the State Financial Corporation Act, 1951, the circulars and guidelines issued by the SIDBI and Reserve Bank of India ('RBI') from time to time and the Accounting Standards notified under Section 133 of the Companies Act, 2013 read together with paragraph 7 of the Companies (Accounts) Rules, 2014 to the extent applicable and practices generally prevalent in the banking and financial sector in India. The Corporation has adopted the format of Schedule III to the Companies Act and Accounting standards issued by the Institute of Chartered Accountants of India, for better presentation of the financial statements.

The accounting policies adopted in the preparation of financial statements are in consistence with those of previous year except for the change in accounting policy, explained hereunder.

1. SIGNIFICANT ACCOUNTING POLICIES

1.1 . Uses of Estimates

The preparation of the Financial Statements, in conformity with Indian GAAP requires Management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures relating to contingent assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in material or immaterial adjustments to the carrying amounts of assets or liabilities in future periods. Actual results could differ from those estimates. The Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Any revisions to the accounting estimates are recognised prospectively in the current and future periods.

1.2. Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Corporation and the revenue can be reliably measured. All the revenue items are accounted on accrual basis. Income is recognised on accrual basis on performing assets and on realisation basis in respect of non-performing assets as per the prudential norms on income recognition, asset classification and provisioning prescribed by RBI/SIDBI. The Corporation debits the monthly interest in all the loan accounts on the first day of the subsequent month. Interest due is calculated and charged to the party on gross basis and the eligible rebate is credited to the party on payment of dues in time subject to their rating and other factors determining the rate of rebate. The rebate for prompt payment is deducted from interest income for reporting in the financial statements. Interest accrued on standard loans is recognized as interest income in the financials at the end of the financial year and is reversed on the first day of the next financial year.

The commission on performance guarantee provided is collected upfront from the customers for the full tenure of guarantee period. However the commission in respect of the unexpired portion of the guarantee will be reversed at the end of the financial year. In case of completion/closure of facility before the specified tenure, corporation will reimburse the commission for the balance period, provided the commission for a minimum period of one year will be retained.

Recovery of loans and advances is appropriated first towards recovery of expenses, then towards interest and the balance, if any, towards principal. However, in the case of Compromise Settlement and sale of units taken over under the SFCs Act, 1951 and Revenue Recovery proceedings, the proceeds are apportioned first towards recovery of expenses and then towards principal amount and lastly towards interest, on satisfaction of the stipulated conditions. Recoveries from bad debts written-off are recognised in the Statement of Profit and Loss as revenue on receipt basis.

All other investments are classified as Non-current investments.

Investments classified under Long term investments need not be marked to market and will be carried at acquisition cost on individual investment basis, unless it is more than the face value, in which case the premium should be amortised over the period remaining to maturity. Investments classified under Current Investments will be valued at lower of cost and fair value either on individual investment basis or by category of investment. On disposal of an investment, the difference between carrying amount and net disposal proceeds are charged or credited to the profit and loss statement. Any amount received in future in respect of these investments will be credited to profit and loss statement. Interest, dividend or other receivables in connection with the investments are considered as income.

1.4. Loans and Advances

Advances are classified as performing and non-performing based on the RBI / SIDBI guidelines and are stated net of bad debts write-off. The provisions for possible losses on such advances are made at estimated rates which is equal to or more than the rates prescribed in the prudential norms, circulars and directives issued by RBI/SIDBI. The Current maturity of Loans & advances is classified as Other Current Assets (Note No.14) under the head Current Assets and the non current portion is classified as Other Non-current Assets (Note No.11) under the head Non Current Assets. 1.5. Provision

A provision is recognised when the Corporation has a present obligation as a result of past event where it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and should be determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

1.6 Provisioning Norms and Provision Coverage Ratio (PCR)

In conformity with the prudential norms, provisions are given on the basis of classification of assets as prescribed by RBI. The Corporation follows the policy of building up provisioning when the profits are good, which can be used for absorbing losses in a downturn. The provisions are made at such rates as recommended by ALCO with the approval of the Board.

General provisions are the minimum regulatory provisions as prescribed by RBI. Specific provisions are additional provisioning at rates higher than the rates prescribed by RBI. Floating provisions are provisions kept in addition to the Specific provisions and not used for making specific provisions or general provisions as per the extant prudential guidelines. It is used only for contingencies under extraordinary circumstances for making specific provisions in impaired accounts.

Provisioning Coverage Ratio (PCR) is the ratio of provisioning to gross non-performing assets and indicates the extent of funds the Corporation has kept aside to cover loan losses. PCR is calculated as per the guidelines given vide RBI circular DBOD.No.BP.BC.64/21.04.048/2009-10 dated December 1,2009 and circular no. DBOD.No.BP.BC.87/21.04.048/2010-11 dated April 21, 2011.

The Corporation has the provisioning cushions consisting of general provisions, specific provisions as well as floating provisions, and are maintaining a total PCR including floating provisions, which is not less than 70 per cent.

Provision for standard advances are made at such rates subject to the minimum provisioning prescribed by the RBI / SIDBI guidelines for standard advances. Provisions for bad and doubtful debts are made in respect of non-performing advances based on overall portfolio quality, asset growth, economic conditions, Management's assessment and other risk factors subject to the minimum provisioning level prescribed by the RBI / SIDBI guidelines. Additional provisions are made against specific non-performing assets over and above what is stated above, if in the opinion of the management, is necessary. In case the specific provision available during a year is more than the required minimum or the ALCO recommended rates, the excess provision can be either written back or can be considered for that year as decided by ALCO. Floating provisions cannot be reversed by credit to the profit and loss account.

During the year the corporation has provided 0.25% for SME sector, 0.40% for Medium /Other sector and 1% for CRE sector for all standard advances and thus provision made is in line with the minimum prescribed by the RBI / SIDBI guidelines. A judicious provision of 60% (70% in FY 2019-20) is made for all Substandard advances including secured portion of CGTMSE loans. For CGTMSE loans, 100% provision is made for the unsecured portion.
