By their nature, certain of the market risk disclosures are only estimates and could be materially different from what actually occurs in the future. Factors that could cause actual results, performance or achievements of the Issuer to differ materially include, but are not limited to, those discussed in the sections entitled "Risk Factors" in this Key Information Document.

Forward-looking statements and financial projections reflect current views as of the date of the Issue Document and are not a guarantee of future performance or returns to Eligible Investors. 2. THERE IS NO GUARANTEE THAT THE DEBT SECURITIES WILL BE LISTED ON THE STOCK EXCHANGE(S) IN A TIMELY MANNER OR AT ALL.

In accordance with Indian law and practice, approval for listing and trading of the Debt Securities will not be granted until after the Debt Securities have been allotted. Further, the Debt Securities may decline in value and marketability and Investors should note that, whatever their investment in the Debt Securities, the cash amount due at the respective maturity dates will be equivalent to the face value of the Debt Securities. More than one risk factor may have simultaneous effect with regard to the Debt Securities such that the effect of a particular risk factor may not be predictable.

4. A DOWNGRADE IN CREDIT RATING OF THE DEBT SECURITIES MAY AFFECT THE PRICE OF THE DEBT SECURITIES.

Even if there is a secondary market for the Debt Securities, it is not likely to provide significant liquidity. An illiquid market may have an adverse impact on the price at which the Debt Securities may be sold in the secondary market. Any such Debt Securities so purchased may be required to be held or resold or

surrendered for cancellation. To the extent that an issue of Debt Securities becomes illiquid, an Investor may have to hold the Debt Securities until redemption to realize value.

8. TAXATION

It is not unusual for court proceedings in India to continue for extended periods. Disposition of cases may be further subject to various delays including multiple levels of appellate adjudication.

10. EXERCISE OF POWERS BY THE DEBENTURE TRUSTEE IS SUBJECT TO EQUITABLE PRINCIPLES AND SUPERVISORY POWERS OF COURTS.

The exercise by the Debenture Trustee of the powers and remedies conferred on it under the Debentures and the Debenture Documents or otherwise vested in it by law, will be subject to general equitable principles regarding the enforcement of security, the general supervisory powers and discretion of the Indian courts in the context thereof and the obtaining of any necessary governmental or regulatory consents, approvals, authorizations, or orders.

11. THE RIGHT OF THE DEBENTURE HOLDERS TO RECEIVE PAYMENTS UNDER THE DEBENTURES WILL BE JUNIOR TO CERTAIN TAX AND OTHER LIABILITIES PREFERRED BY LAW ON AN INSOLVENCY OF THE ISSUER.

The Debentures will be subordinated to certain liabilities preferred by law such as claims of the Government of India on account of taxes and certain liabilities incurred in the ordinary course of the Issuer's business (including workmen's dues). Upon an order for winding-up in India, the assets of a company are vested in a liquidator who has wide powers to liquidate such company to pay its debt and administrative expenses.

Structure related Covenants of the Issuer	- Unconditional and Irrevocable Guarantee from State Government of Andhra Pradesh for timely servicing of Interest and Principal in respect of Bonds. - Maintenance of Debt Service Reserve Amount (DSRA) to the extent of fully covering the peak servicing requirements for 2 quarters as a liquidity support. - Entire revenue of the Issuer from all activities to be collected in a single account – Revenue Collection Account. - Stipulation for invocation of Government Guarantee for impairment of DSRA if not remedied within 30 days of stipulated timelines with activation of Defined Recourse Mechanism and ensuring Default Escrow Mechanism on the Revenue Collection Account remaining active till DSRA replenishment gets completed. - Stipulation for invocation of Government Guarantee in case of an Event of Default, if settlement of entire liabilities not effected within stipulated timelines with activation of Defined Recourse Mechanism and of the Default Escrow Mechanism on the Revenue Collection Account in the post invocation scenario.

Revenue Collection Account under Default Escrow Mechanism	The Issuer would be required to open a designated account APMDCL Revenue Collection Account or RCA and ensure through an irrevocable undertaking that the entire revenue of the Issuer accruing from whatsoever activity would be deposited only in this account, either directly or through an irrevocable standing instruction to any other collection account(s) of the Issuer to transfer the entire collection to RCA on a day-to-day basis. The Issuer would need to give an undertaking that any violation of this arrangement including opening of any new account(s) for Revenue Collection under whatsoever condition would be treated as an Event of Default unless the said violation is fully remedied within next 3 Working Days. These undertakings from the Issuer would be an integral part of the Debenture Trust Deed and to be monitored by the Debenture Trustee on a regular basis. The waterfall mechanism of the Revenue Collection Account to be followed would be as below: 1. Statutory dues and taxes 2. Servicing of the bonds (including stipulated monthly transfer to BSA and DSRA replenishment) 3. Payment for all operating expenditures 4. Payment for all overheads 5. Surplus, after meeting the above, can be utilised by the Issuer, after the closure of the concerned financial year, subject to the condition that the DSCR for the relevant financial year is computed and found to be 1.25 or above else the same would need to be transferred to Contingency Reserve Account. The RCA would be under a Default Escrow Mechanism. The above waterfall would be followed under normal conditions. However, once the Default Escrow Mechanism is enforced, all the revenue getting collected in the RCA would be directly transferred to BSA/DSRA till such time all the liabilities of the issuer in respect of the Bonds are fully met.
Bond Servicing Account (BSA)	The Issuer would be required to open a designated escrow account - “APMDCL BOND SERVICING ESCROW ACCOUNT” or “BSA” exclusively charged to the Debenture Trustee (for the benefit of the Bond holders). All funds for meeting servicing requirements of the Bonds should be credited within a specified timeline prior to the servicing date in the BSA. This would be a regular Escrow Account and all funds in this account would be solely utilised for servicing the Bonds throughout their tenor.
Debt Service Reserve Account (DSRA)	The Issuer would be required to open a designated escrow account - “APMDCL DEBT SERVICE RESERVE ESCROW ACCOUNT” or “DSRA” exclusively charged to the Debenture Trustee (for the benefit of the Bond holders). An amount equivalent to the peak servicing obligation (Interest plus Principal) of the outstanding Bonds for two quarterly payouts (falling due at the end of 5th and 6th quarter from the deemed date of allotment) would need to be maintained by the Issuer in the DSRA and the amount so calculated would need to be deposited on first priority basis out of the issue proceeds.

	Further, as the servicing liability would progressively come down after the peak, the Issuer would be permitted to take out the excess amount of DSRA progressively after obtaining approval of the Debenture Trustee, subject to no unresolved breach of any covenants. The DSRA would be in the form of cash or cash equivalent (deployed in permitted investments) and would remain charged in favour of the Debenture Trustee.
Contingency Reserve Fund	The Company would be required to open a designated escrow account - Contingency Reserve Account (CRA) where no funding is required initially. In the years where the DSCR at the annual computation is found to be below 1.25 times, the surplus (after meeting all expenses and tax payouts) for that particular year would be credited directly from the Revenue Collection Account to CRA without allowing the company to utilise the said surplus. The Company would be free to utilise the annual surplus in the years where the DSCR computed annually is above 1.25 times. However, any amount once transferred and lying in the Contingency Reserve Fund would be released only after DSCR remains at or above 1.25 times for minimum 2 consecutive years subject to the condition that there is no impairment of DSRA under both the conditions. DSCR would be tested annually at the end of each financial year and would be the ratio of surplus before interest depreciation but after tax to the total servicing obligation for the year (interest plus principal). This transfer of surplus from the Revenue Collection Account and the balance from the CRA as stipulated above would be allowed once at the expiry of the concerned financial year subject to the satisfactory compliance of the conditions aforesaid including completion of annual DSCR computation and the same being found to be above 1.25 times.
Permitted Investments	The funds in BSA, DSRA and CRA till such time being utilized would be allowed to be invested in permitted investments i.e. (a) Fixed Deposits with Scheduled Commercial Banks with a minimum Credit Rating of AA, without any restriction on premature encashment whenever called upon and/ or (b) Units of liquid mutual funds or overnight mutual funds and corporate bonds of public sector undertakings, having the highest possible investment grade rating. These investments are to be charged in favour of the Debenture Trustee. These investments would be made & liquidated by the Debenture Trustee as per the instruction of the Issuer from time to time. However, any investment of funds of BSA, other than in Bank FDs would be compulsorily liquidated by the Trustee on T-3 days, if not liquidated earlier. The investment in Bank FDs, out of funds lying in BSA should have a maturity date at least 1 day prior to the forthcoming Bond servicing date. In case of any shortfall of funds to meet servicing requirement persisting in the BSA on T-10 day, the Debenture Trustee should ensure availability

	of adequate funds to meet such shortfall in cash form in the Contingency Reserve Fund and DSRA, if required, through need-based liquidation of investments/ fixed deposits made from the Contingency Reserve Fund and DSRA, as the case may be.
Structured Payment Mechanism	The Issuer would ensure that on the first Working Day of every quarterly servicing cycle, an amount equivalent to 30% of the requisite servicing amount should get transferred from RCA to the BSA. The Company should further transfer an amount equivalent to 35% of the quarterly servicing requirement both by T-60 and T-30 (i.e. 60 and 30 days prior to the servicing date) to BSA from the RCA so as to ensure full built up of servicing amount payable at-least 30 days prior to the relevant quarterly servicing date (T-30). The Debenture Trustee should independently check whether the requisite amount of funds has been transferred to BSA on the next Working Days in all the above cases and in case of any shortfall in amounts transferred, must immediately enforce the Default Escrow arrangement on RCA, which shall remain in force till the entire built up of the particular cycle gets completed. In the event of Debenture Trustee finding any shortfall during the monitoring on T-29 days, it shall immediately send a written communication to the State Government to provide fund support for meeting the shortfall. A provision in the Guarantee Deed would specifically stipulate a pre-invocation responsibility of the State Government to bridge this shortfall on or before T-9 (Final Funding Date) to prevent any DSRA impairment and consequential invocation of the guarantee. In case the shortfall in BSA still persists on T-5 day, such shortfall would be met by transferring requisite funds firstly from CRA to the extent available and further amount if required from DSRA to BSA. On the due date, the payout would be made to the Bond holders from BSA.
Description regarding Security (where applicable) including type of security (movable /immovable / tangible etc.), type of charge (pledge/ hypothecation/ mortgage etc.), date of creation of security/ likely date of creation of security, minimum security cover, revaluation	The Bonds would be secured by way of: 1) Exclusive Charge on the Bond Servicing Account and the amount credited therein and which are required to be credited therein, which shall be utilized only for servicing of the bonds on quarterly servicing dates. 2) Exclusive Charge on the DSRA and CRA Account and the funds lying there-in. 3) Exclusive charge on the Revenue Collection Account and the amount accruing / lying there-in. 4) Exclusive Charge by way of hypothecation (along with power of attorney) over quarry leasehold rights and mining rights of 436 identified mines of minor minerals projects granted by the State Government of Andhra Pradesh, including any replacement thereof as well as all cash flows arising therefrom. Valuation of such mining rights would be determined on the basis of the net present valuation of projected future cash flows arising out of the estimated mineral reserves available in such mines. 5) Exclusive floating charge, by way of hypothecation over all the current assets of the Company, including receivables, both present and future. 6) Unconditional & Irrevocable guarantee from the State Government of Andhra Pradesh ("GoAP"), in the form of a continuing obligation for

	the timely servicing of the interest and principal in respect of the Debentures / Bonds. The value of quarry leasehold rights and mining rights of 436 identical mines of minor minerals projects, as stated in point 4 is estimated to be of an amount Rs 9637 crores. These accounts would be governed by an Escrow Agreement and the charge on such accounts and Permitted Investments made therefrom will be created through a Deed of Hypothecation in favour of the Debenture Trustee, immediately after allotment of debenture and prior to making application for listing. The above charge would be filed with the office of the concerned Registrar of Companies and Central Registry of Securitisation Asset Reconstruction and Security Interest ("CERSAI"). It should be ensured that the value of security at any point of time should be sufficient to provide a cover of at least 1 time on the outstanding liabilities. The Debenture Trustee shall obtain the valuation and security cover certificate of the available Security on a quarterly basis by itself or through its empanelled agency. The Issuer shall also provide security cover certificate from its statutory auditor on a quarterly basis. Further, the Issuer shall submit to the Debenture Trustee the valuation of underlying mineral deposits in the identified mines once in every three years. If the security cover of the assigned charge on the mining rights over the identified mines as per valuation method described above along with funds lying to the credit of the BSA, DSRA, CRA and Revenue Collection Account falls below 1 time, the Issuer shall provide additional security in a form and manner, in consultation with and to the satisfaction of the Debenture Trustee to fully restore the security cover.
Replacement of security, interest to the debenture holder over and above the coupon rate	The Company shall have the right to replace any asset from the security package with another asset of the same or a higher value as acceptable to the Debenture Trustee and shall ensure that the minimum-security cover of 1 time shall be maintained until the redemption of the Bonds.
Permitted Indebtedness	The Issuer would be permitted to raise a maximum debt of INR 9,000 crores through issue of Bonds in one or more series/tranches and no other external senior liability till the DSCR is found to be above 1.5 times. However, there would be a separate limit for availing bank guarantee which would be unconditionally and irrevocably guaranteed by the State Government of Andhra Pradesh and without any recourse to the company. As of now the limit has been fixed at INR 906.52 crores, for which the State Government has given its unconditional and irrevocable guarantee. The Bank Guarantee limit, if required, can be enhanced subsequently subject to the same being unconditionally and irrevocably guaranteed by the State Government of Andhra Pradesh and without any recourse to the company, and furnishing of the relevant guarantee deed to the Debenture Trustee. If DSCR of the Issuer is found to be in excess of 1.50 times at the end of any financial year, it would be allowed to raise further direct liabilities (having recourse to the Company) only as per its requirements from time to time, subject to the condition that the aggregate external direct liability

	(including all forms of guarantee obligations, if provided by the Company) should at all times be restricted to an amount such that the minimum Debt Servicing Coverage Ratio remains atleast 1.50 times throughout the tenure of the Bonds. All direct liabilities raised would enjoy pari-passu status in all respects including but not limited to seniority, State Government guarantee (including Defined Recourse Mechanism), security and servicing priority and circumstances triggering enforcement of Default Escrow Mechanism and Event of Default. However, in the event of any subsequent liability being raised on more favorable terms, the same shall apply, mutatis mutandis to all the series of the Bonds.
Collateral Support Structure	The Bonds would have further collateral support by way of unconditional and irrevocable guarantee from the State Government of Andhra Pradesh, in the form of a continuing obligation for the timely servicing of interest and principal of the Bonds. The Issuer has already paid the necessary fees to the State Government for providing the guarantee. The Guarantee Deed would also provide for necessary fund infusion in the DSRA, in the event of its impairment and in the case of Event of Default, provision of funding to the extent as called upon by the Debenture Trustee through DSRA shortfall/ Event of Default notice, within stipulated timelines, failing which the Debenture Trustee would issue the Guarantee Invocation Notice, for invocation of guarantee. The Guarantee Deed shall also contain a provision stipulating a pre-invocation responsibility of the State Government to bridge the shortfall in the BSA on or before T-9 to prevent any DSRA impairment and consequential invocation of the guarantee. The State Government of Andhra Pradesh has further agreed and confirmed that in case any of the 436 new minor mines are not operational for any reason whatsoever, the State Government of Andhra Pradesh shall undertake all required steps and do all such acts as may be required to replace such relevant non-operational minor mineral mines, with new minor mineral mines which have net present value of future cash flows of such amounts as are not less than the net present value of future cash flows of the relevant non-operational minor mineral mines and undertake all steps for the grant of the quarry leasehold rights and mining rights in respect of such replaced minor mineral mines.
Remedial Action for shortfall due to DSRA impairment	The Debenture Trustee would check the adequacy of funds available in the DSRA on the first day of every quarterly servicing cycle. In the event of any shortfall in DSRA due to impairment on account of transfer of funds to BSA or for any other reason, the Debenture Trustee would send DSRA Shortfall notice to GoAP on the next day stating that if the amount is not fully replenished within the next 30 days, the guarantee would be invoked to the extent of such shortfall along with simultaneous triggering of Defined Recourse Mechanism in the post invocation scenario. The Debenture Trustee should also ensure that the Default Escrow Mechanism on RCA remains in force till all the irregularities including requisite DSRA replenishment get completely remedied. If DSRA is not fully restored at the expiry of aforesaid 30 days, the Debenture Trustee would invoke the guarantee to the extent of such

	shortfall on the next Working Day through issue of Guarantee Invocation Notice, along with simultaneous triggering of Defined Recourse Mechanism in the post invocation scenario. This process of Guarantee invocation, triggering of Defined Recourse Mechanism in the post invocation scenario, can happen multiple times if situation so warrants during the tenure of the Bonds. Defined Recourse Mechanism means that if there is any shortfall in DSRA / BSA upon the expiry of stipulated time period, the Debenture Trustee can invoke the guarantee to the extent of such shortfall, along with triggering of the direct debit mandate issued by the GoAP to the RBI, to request RBI to meet such shortfall from the accounts of the GoAP maintained with it.
